

THE PROGRAMS ARE EDUCATIONAL

Learn about the world we live
in from the experts!

Wildlife Ambassadors is home to over 20 different animals including reptiles, birds, mammals and invertebrates. Every one of our animals has their own story but they all share one thing in common – the unique ability to create a human-wildlife bond. Our ambassadors give us important insight into their world and how we can peacefully coexist together.

SUPPORT OUR WORK.

If you would like to help us make a difference there are a number of ways you can support us:

- Sponsor one of our ambassadors.
- Help with the grocery shopping – we eat a lot of fruit (bananas, grapes, melons) and nuts (raw unsalted nuts in the shell like peanuts, brazil nuts, and almonds).
- Provide some “homey” touches – with more than 20 animals we are always in need of bowls, towels, blankets, cat trees, and parrot toys.

WHERE THE TEACHERS ARE WILD

What we believe.

At Wildlife Ambassadors, we believe that education is the first step to making sustainable, positive change in the world. We strive to offer the finest educational programs that inspire people to learn more and want to do more.

We know that the best way to engage children is to make something fun. Entertainment is the cornerstone of our work and we make sure our audience has fun.

The greatest gift we can give our children is the understanding that all living things have a purpose.

We care deeply about our work and it is important that our programs are the highest quality. We are invested in community – both the human one and the natural one. We believe everyone should have the opportunity to learn about the world we live in.

AND THE AUDIENCE IS AMAZED.

The only way to truly know the wonders of the natural world is to interact with it.

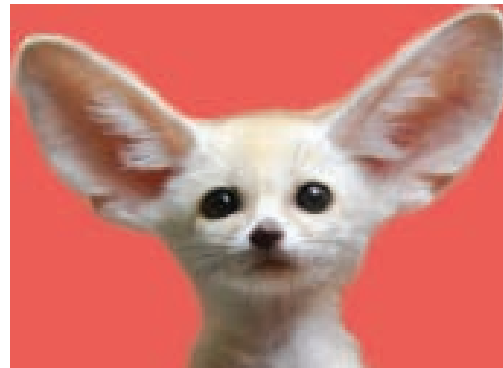

Walking the talk.

We believe strongly in nurturing a love and respect for nature and wildlife. It is a core message in all our programs and a core part of our business model. Wildlife Ambassadors provides a permanent sanctuary for dozens of animals – many of whom have been placed with us by their owners, have been adopted from the local animal shelter or are injured, non-releasable wildlife. We do more than give them a voice. We give them a second chance.

Providing programs that educate and inspire.

The Wildlife Ambassadors mission is to provide high quality, exciting wildlife education programs for people of all ages. Our goal is to dispel wildlife myths, educate the public about wildlife, diminishing habitats and endangered animals while providing realistic ways for people to get involved and make a difference.

Wildlife Ambassadors has a wide range of programs including our American Wildlife program that explores our own backyard habitats through up close encounters with native animals including the box turtle, opossum, screech owl, and native snakes. The “Journey to the Jungle” program delights audiences with beautiful macaws, a giant toad, huge creepy crawlies and a kinkajou as we “visit” the amazing and vital tropical rain forests of the world. With half a dozen programs there is something for everyone.
